Nikola Djordjevic

Front-end Developer

nikola.dj.87@gmail.com | [LinkedIn](#)

+381600322307 | [Portfolio](#)

I'm a self-taught developer with a passion for problem-solving. I often use code as a tool to tackle challenges and build solutions that make life easier. I focus on creating efficient, scalable, and user-friendly applications.

Skills

Tools: React, Typescript, Tailwind, Redux, NextJS, Git, Figma, Team Collaboration, Agile Methodology

Work Experience

Front-end Developer@ Streamflow

2023 - PRESENT

- Developed and maintained front-end features for a decentralized finance platform specializing in streaming payments, Airdrops, Staking, Token locking, and payroll solutions on the Solana blockchain.
- Collaborated with a team to enhance user interface performance and integrate blockchain technologies.
- Utilized technologies such as React, TypeScript, and Tailwind CSS to deliver responsive and user-friendly web applications.

Front-end Developer @ SoftMetrix

2022 - 2023

- Collaborated closely with designers and back-end developers to design and develop an international e-commerce platform, enabling users to create personalized shops and ranking structures.
- Utilized technologies such as React, NextJS, and Tailwind CSS to deliver responsive and user-friendly web applications.

Front-end Developer @ Kortechs

2020 - 2021

- Collaborated in a dynamic team environment with designers and back-end developers to create a Dispatch dashboard, Booking service, and Business website.
- Utilized technologies such as React, GetsbyJS, and Redux to deliver responsive and user-friendly web applications.
